

IC+ International Term Life Insurance is Different

MultiNational Underwriters® (MNU) offers a unique life insurance plan not available from traditional life insurance companies. Together with our partners at Lloyd's, London, MNU has created an international term life insurance program that addresses the challenges of international relocation, living and working. While many companies automatically reject your application if you intend to leave or are currently outside the United States, MNU's IC+ Term Life Insurance Plan is capable of providing life insurance coverage while you live or work in many countries around the world.

MultiNational Underwriters® builds security and trust with term life insurance for international citizens living abroad. In the case of untimely death of you or your spouse, the insurance may help to:

- Provide cash and income immediately following death
- Prevent a family from losing its standard of living
- Pay debts and taxes
- Provide income for your children's education

Getting a quote and making an application for IC+ International Term Life could not be easier. Instant quotes and applications are available online at www.gninsurance.com.
